ServiceNow · ITIL · Azure / AWS / GCP · Python · React / Node.js · CRM · B2B · Agile / Scrum · Team Leadership

PROFESSIONAL EXPERIENCE

Field Marketing & Event Team Lead | June 2025 – March 2026

Fresh Prep, Calgary, AB

- Spearheaded Alberta field marketing for a fast-growing meal kit brand — managed brand ambassadors through recruitment, onboarding, and performance coaching across trade shows and community events.
- Exceeded regional customer acquisition targets at B2B activations; leveraged CRM and sales tracking tools to optimize lead-to-subscriber conversion rates.

Service Delivery Analyst — Intern | Sept 2023 – Sept 2024

QuadReal Property Group, Calgary, AB

- Managed end-to-end incident lifecycle in ServiceNow — triaging, diagnosing, and resolving 100+ enterprise incidents applying ITIL-aligned change, problem, and incident management for 1,000+ users.
- Championed IT documentation by building runbooks and knowledge-base articles; automated workflows via Office scripting, reclaiming hours of weekly team capacity.

Customer Experience Analyst → Sales Representative | June 2021 – April 2023

Neo Financial, Calgary, AB

- Resolved complex fintech inquiries (credit, banking, fraud) via phone and live chat; recognized as a high performer with expanded scope including mortgage-related support and multi-product cross-selling.
- Acquired 100s of new customers as a Brand Ambassador at in-person activations; mentored new hires and consistently exceeded sign-up and sales targets earning performance incentives.

Machine Learning Team Lead / Python Developer | May 2025 – Present

DEFEND / 65square (Volunteer Remote)

- Directed Agile sprint delivery for a distributed ML team; built NLP classification systems (Python, TensorFlow, scikit-learn) and scalable data pipelines for a youth-safety social platform.

TECHNICAL PROJECTS

Alphacons Conference Registration System | React · Node.js · MySQL · Google Cloud · Stripe

- Full-stack event platform with secure Stripe payment processing, admin dashboard, and cloud deployment — end-to-end production ownership.

MRU Hacks Website | Lead Developer · MRUHacks.ca

- Led development of MRUHacks.ca for 2+ years — UI/UX design, backend logic, and event management features for MRU's flagship hackathon.

CanRepay — Student Loan Planner | React Native · Expo · iOS / Android / Web

- Built cross-platform mobile app at CalgaryHacks with repayment calculators, net worth tracker, and progress visualizations.

Social Media Sentiment Analysis | Python · TensorFlow · MongoDB

- NLP classifier achieving 85% accuracy on social media datasets with MongoDB ingestion pipelines and optimized model retraining.
